

# **HON Chi-fun**

## Supplementary Teaching Materials (Junior Secondary)

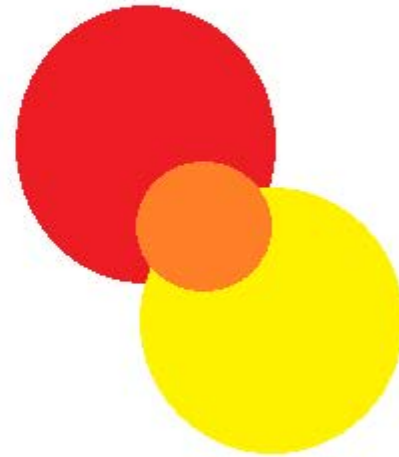

# **Art-making process**

1. Each student is given a framed canvas

2. Creating a background: pick colours that can represent your feelings and apply the colours with heavy brush strokes, using the techniques of colour gradation to fill the canvases

3. Mixing the colours: Mix and paint complementary or analogous colours on the canvases and wait for them to be dried.

4. Circular objects: Separate into groups and look for circular objects in various sizes in the classroom and create paper stencils in groups

5. Place various circular objects on drawing paper and draw the contours
6. Then, cut the stencils out according to the contours

7. Place the paper stencils on the canvases and apply colour with spray paint

8. Use composition methods such as superimposition, symmetry and contrast in size to paint circles

Done!
